

COMPUTERS, ENVIRONMENT AND URBAN SYSTEMS

VOLUME 26, LIST OF CONTENTS

Volume 26, Number 1

January 2002

CONTENTS

Special Issue

22nd URBAN DATA MANAGEMENT SYMPOSIUM Delft, The Netherlands 10-15 September 2000

Robert Laurini	1	Editorial
D. Pantazis B. Cornélis R. Billen D. Sheeren	3	Establishment of a geographic data dictionary: a case study of UrbIS 2
C. Brox Y. Bishr K. Senkler K. Zens W. Kuhn	19	Toward a geospatial data infrastructure for Northrhine-Westphalia
T. Bohler K. Karatzas G. Peinel T. Rose R. San Jose	39	Providing multi-modal access to environmental data — customizable information services for disseminating urban air quality information in APNEE
R.D. Swetnam C.I. Tindall J.M. Cook S.J. Pepler R.P. Shaw	63	Collation, management and dissemination of environmental research relating to urban areas in the UK. The approach used within the Natural Environment Research Councils URGENT Programme

Volume 26, Number 2/3

March/May 2002

CONTENTS

Special Issue

GISRUK 2001

G. Higgs D. Kidner	85	Editorial
S. Kalogirou	89	Expert systems and GIS: an application of land suitability evaluation

- | | |
|--|---|
| B. Hoersch
G. Braun
U. Schmidt | 113 Relation between landform and vegetation in alpine regions of Wallis, Switzerland. A multiscale remote sensing and GIS approach |
| K. Appleton
A. Lovett
G. Sünnerberg
T. Dockerty | 141 Rural landscape visualisation from GIS databases: a comparison of approaches, options and problems |
| K.W. Morrison
R.S. Purves | 163 Customizable landscape visualizations. Implementation, application and testing of a web-based tool |
| S. Eagleson
F. Escobar
I. Williamson | 185 Hierarchical spatial reasoning theory and GIS technology applied to the automated delineation of administrative boundaries |
| A. Symington
M.E. Charlton
C.F. Brunsdon | 201 Using bidimensional regression to explore map lineage |
| N. Regnauld
W.A. Mackaness
G. Hart | 219 Automated relief representation for visualisation of archaeological monuments and other antiropogenic forms |
| P. Boyle
Z. Feng | 241 A method for integrating the 1981 and 1991 British census interaction data |

Volume 26, Number 4

July 2002

CONTENTS**Special Issue****Geocomputation 2000**

- | | |
|---|---|
| J. Ehlen
D.R. Caldwell
S. Harding | 257 Editorial |
| M. Gahegan
M. Takatsuka
M. Wheeler
F. Hardisty | 267 Introducing <i>GeoVISTA Studio</i> : an integrated suite of visualization and computational methods for exploration and knowledge construction in geography |
| I.N. Gregory | 293 The accuracy of areal interpolation techniques: standardising 19th and 20th century census data to allow long-term comparisons |

- V. Estivill-Castro
I. Lee 315 Argument free clustering for large spatial point-data sets via boundary extraction from Delaunay Diagram
- N. Currit 335 Inductive regression: overcoming OLS limitations with the general regression neural network

Volume 25, Number 5

September 2002

CONTENTS**Theme Issue****Cadastral Systems**

- C. Lemmen
P. van Oosterom 355 Cadastral Systems II
- P. van der Molen 361 The dynamic aspect of land administration: an often-forgotten component in system design
- W.A. Robertson 383 Anticipating the further development of cadastral systems
- M.A. Silva
E. Stubkjær 403 A review of methodologies used in research on cadastral development
- E.-S. Lu
T.-Y. Shih 425 Parcel boundary identification with computer-assisted boundary overlay process for Taiwan
- K. Fradkin
Y. Doytsher 447 Establishing an urban digital cadastre: analytical reconstruction of parcel boundaries
- S. Bittner
A.U. Frank 465 A formal model of correctness in a cadastre
- M. Morad 483 British Standard 7666 as a framework for geocoding land and property information the UK

Volume 25, Number 6

November 2002

CONTENTS

- W. Tobler 493 Global spatial analysis
- C. Brunsdon
A.S. Fotheringham
M. Charlton 501 Geographically weighted summary statistics—a framework for localised exploratory data analysis

E.A. Silva
K.C. Clarke

B.C. Pijanowski
D.G. Brown
B.A. Shellito
G.A. Manik

A.L. Brown
J.K. Affum

525 Calibration of the SLEUTH urban growth
model for Lisbon and Porto, Portugal

553 Using neural networks and GIS to forecast land
use changes: a Land Transformation Model

577 A GIS-based environmental modelling system
for transportation planners
